Pastel Workshop for Adults
**NEW:** Color Mixing/Color Theory Workshop in Pastel, Acrylic, and Collage (Ages 16+)

Treat yourself to this 8 Week Immersive Workshop where you will dive into color theory going beyond the basics of the color wheel and discover how color affects mood, creates depth, rhythm and movement in painting. The objective of this class is to give you more control and flexibility over your colors. We will explore various aspects of color that you can immediately begin utilizing in your art practice including: neutralizing colors to get more realistic and natural paintings, pushing space forward and backward using temperature, creating colors that “sing” based on organization, various color charts to limit palettes for efficiency and avoid muddy work. We will look at examples and learn from the Masters including Renaissance painters, the Impressionists and Bauhaus theorists like Johannes Itten and Joseph Albers.
